

► The PS/2

► When you are looking for quality without compromise, the PS/2 from StarTrans Bus delivers. The PS/2, with its solid, steel cage frame, utilizes the same construction as other time-tested StarTrans models. Built on a Freightliner S2C chassis, this bus utilizes straight side wall construction and features a wide aisle to maximize shoulder space, offering a spacious and comfortable experience for your passengers.

The PS/2 is engineered to accommodate a variety of seating arrangements including wheelchair accessibility and numerous storage options for luggage. The roomy driver area allows for easy maneuvering in and out of the driver's seat and increased visibility for the driver. Finally, whether it's the aluminum chassis cab, forward-tilting hood for ease of maintenance or the air suspension driver's seat for a better ride, the Freightliner chassis beats the competition hands-down. Choose the PS/2...quality, inside and out.

► PS/2 Features | Features to Meet Your Specific Needs

Spacious interior with high-back seats and overhead luggage racks
